INDEX TO THE NINETY-SEVENTH CRITICAL BIBLIOGRAPHY

The following index contains all the personal names appearing in the Critical Bibliography. It also contains the names of institutions when used as author or subject. To enhance the usefulness of the index all citations for a given person have been consolidated under the best-known form of his name, with preference shown for the anglicized version. A cross-reference can usually be found under the common variations (e.g. "Ibn Sīna, *see* Avicenna"). We have, hopefully, observed the established usage in alphabetizing foreign names (e.g. De Morgan, Augustus; López Piñero, José Maria; Watanabe, Masao; Li Yen; al-Bīrunī–under B; Ibn Qurra–under I).

In the 97th Critical Bibliography each citation has been given an individual number. The numbers in this index, therefore, refer to specific citations, not to pages. Numbers in roman style refer to items in which the person or institution indexed is either the author, editor, or translator of the citation. *Italic* numbers refer to items in which the person or institution indexed is treated as a subject.
